Please note this is unsuitable as a children's toy. For sale only to adults. Assembly by adults or supervised by adults only.

As wood is a natural material, in spite of careful processing there might be small differences. These can be compensated by sanding or wood glue.

Even with the careful post-production cleaning, there may remain small traces of soot on the edges of the pieces due to laser cutting.

Avoid contact with mouth, wash your hands after assembly, be aware of your clothing.

Material: Parts made of 6,5 mm birch plywood (to use in dry interior spaces, emission category E1), rods made of beech-tree

Processing: Laser cutting & engraving, surface sanded

Delivered in a jute bag (STANDARD 100 by OEKO-TEX®) including all parts as a construction kit with assembly manual (also available online)
